To be trusted is a greater compliment than to be loved.

Author: George MacDonald (1824-1905), Scottish writer

I founded INPADS GmbH in 2001. But I would never have believed that this project could be so successful within such a short space of time, or that the company would be so respected by its customers.

INPADS is a solid, owner-managed and reliable partner of the pharmaceutical industry.

The reasons why customers work with us are:

- They trust us and they know that we believe in what we do
- They know that our service is tailored to their needs and expectations. We are looking for a real partnership, not just the opportunity to earn easy money.
- They know that our solutions are both technically and functionally superior.
- They appreciate our ability to adhere to deadlines

In 2004 we moved into the former schoolhouse of the spa town Bad Dürkheim. It was clear to me that it is an ongoing learning process, whereby we continually strive to improve ourselves and our service with innovative ideas.

Test us! And you will be successful too.

Dipl.-Ing. Christian Mehl
CEO and founder

Our Scope of Service:

Do you need assistance for:

- Non interventional trials (NIS)
PMS
epidemiological studies
- Phase III studies – with focus on data management and analysis
- Phase IV studies
- Investigator initiated studies (IIS) / - trials (IIT)
- PAES & PASS
- Registries
- any other survey

Then INPADS is the right choice for you, regardless of whether you prefer the conventional or the electronic (eCRF) method?

We currently support many companies. On request, we can supply you with references. We have successfully designed and realised projects of various sizes.

We have considerable experience in the following areas. Of course our interdisciplinary team can work in any other indication area.

- Angiology
- Allergology
- Dermatology
- Diabetology
- Endocrinology
- Gastroenterology
- Gynecology
- Haemostaseology
- Haematology
- Homoeopathy
- Infectiology
- Immunology
- Cardiology
- Nephrology
- Neurology
- Oncology
- Pneumology
- Rheumatology
- Urology
- Vaccines

Your Benefits:

- With our online electronic status report you are continually informed about the status of your project by e-mail within a few minutes.
 - Every colleague can request his personal report by e-mail, thereby saving you time for other essential things.
 - You can receive interim results at every stage of a live project.
- We are one of the very rare CROs with an own eCRF System.
- We can produce the CRF books in-house. This process benefits our customers through lower prices and minimising time to FPI. Aside from “printing on demand“, our digital printing also offers, prenumbered or even partially prefilled CRF's (e.g. for follow-ups).
- The INPADS Data Service offers a continuous and reliable data entry service at a reasonable cost. Besides our offer for OCR, ICR and conventional data entry, we are also experienced in remote data entry.
- At the end of the project you receive one or more CD's or DVD's with all the TIF data. So you can consult your PC comfortably without the need to search through tons of paper.
- Every study is designed according to your needs and expectations. You receive a tailor-made solution.
- The extensive experience of our experts opens up new horizons for you. We are also pleased to support you in wider issues surrounding your project.

Customers Comments:

It would be impossible to list the comments of all our customers, so here is an example:

Dear Mr. Mehl,

we would like to express our sincere gratitude to you and your team for the successful realisation of our recent project.

Looking back, we have come a long way together. This journey was marked by a high level of reliability and adherence to strict deadlines from your side.

We were satisfied with the entire process, starting from the preliminary discussion concerning the design of the CRF's, through to the definition of the logical course of action, your electronic interim reports and, last but not least, the receipt of the final report.

Last week we presented the favourable results to our regional managers and the sales management team.

We wish you every success in future projects.

With my best regards

Chiron Behring GmbH & Co

INPADS – The Team

The core team consists of:

Dipl.-Ing. Christian Mehl - CEO

Founder, Owner. Over 25 years CRO-experience as Managing Director, Head of Data Management, IT and Statistics.

Dr. Dieter Zimmermann – Head of Statistics

Since 2015 with INPADS. Mathematician with a degree. Sophisticated expert for statistics, databases and datamanagement.

Dr. Karola Wittig – Medical Writer

Since 2013 with INPADS. Biologist with a degree with a broad scientific background.

This core team has been extended by additional qualified employees. These were allocated to the projects according to their operational availability and expertise. INPADS is supported by a network of professional advisors, who are experienced in their respective fields.

Once you have tested our service, we are confident that we will become an indispensable partner for you in future projects. Our motto is:

We aim to deliver a premium service at a reasonable price.
